Press Release October 29, 2009

County Road 102 Rehabilitation Schedule Update

Major construction including road closure began Monday, October 12th on County Road 102 between E. Main Street (just north of the railroad tracks) to E. Beamer Street. Although previously noticed as a two week road closure, the revised schedule has the road re-opening on or about Friday, November 6th.

The construction schedule has been extended due to the heavy rains on October 13^{th} and 19^{th} , and the high winds earlier this week. Alternate routes are still in place for farm equipment needing to travel via County Road 102.

Staff contact for this project is Tami Burnham (530) 661-5968.

We apologize for the extended road closure and any inconvenience it may cause.
