Water-Wise Wednesdays

Imagine All The Water Savings

City of Woodland

Free Workshop Series

Every Wednesday in March 2013, 7:00 - 8:30 pm
Woodland Community & Senior Center (2001 East Street)

Livin' on a meter (March 6)

Where to Begin

Interested in becoming more water-wise but unsure where to begin? Join the City of Woodland & Yolo RCD for an overview of water-wise landscaping, water conservation, runoff retention, & available rebates.

* Attend all 4 workshops to be entered into a drawing at the last class for water-wise landscaping prizes.

I fought the lawn and the lawn won (March 13)

Turf Removal & Site Preparation

Have you ever wondered how to convert your lawn to a more water efficient landscape? Taylor Lewis from Cornflower Farms will cover turf removal, alternatives to traditional turf, and site preparation, including soil amendment.

You can't always plant what you want (March 20)

Right Plant, Right Place

Confused by what type of plants are water-wise or where to plant them? Join Heather Nichols from the Yolo RCD & Janet Thatcher & Linda Magrum from the Yolo County Master Gardeners to learn about landscape design considerations and choosing the right plants for the right place. *Followed by a water-wise plant sale.

I heard it through the dripline (March 27)

Irrigation Options & Design

Looking to reduce your irrigation water use, make your system more efficient, or install drip? Tom Noonan with Ewing will cover options to upgrade your current system and what's new in irrigation design.

Chris Robbins with the Yolo RCD will discuss drip irrigation and demonstrate its installation.
